Responsibilities, Skills & Competencies

personal and interpersonal skills

Operations director; Responsible for administrating the office operations and its 15 staff members. Exceptional management skills, as well as highly organized, detail oriented, and solution focused.

Multi-project manager; Supervising and coordinating several complex projects simultaneously. Excellent leadership and analytical skills. Capable of developing original ideas and applying them to problem-solving.
Developed more than 13 projects from start to finish including conceptualization, design, construction documents, and construction.

Site and contractors administrator; Supervision of more than 45 workers at several construction sites, and external contractors and collaborators. Outstanding time and resources administration skills. Successfully direct construction sites simultaneously, delivering on time and schedule.

Communications principal; In charge of the communication between client-office-site-local authorities. Through excellent verbal and written communication skills, we were able to achieve great results comprehending our client's needs, available resources, local social context, and local authorities guidelines, and translating them into a design.
